

Petro Environmental Services Company - PESCO

QHSE Policy

Petro Environmental Services Company "PESCO" and its QHSE management have adopted, and fully support, a formal and continuing program of review, evaluation and modification of our operations, at all levels, so that the Company's ability to provide services, as required by our customers, may be verified and continually improved. Through this process the company shall be fully committed to the continual improvement, prevention of pollution, prevention of injury and ill health and effectiveness of implementing QHSE Management System.

In order to maintain being pioneers in the field of Petro Environmental Services, we are committed to:

- Offer high quality services through the implementation of QHSE Management Systems in compliance to ISO 9001:2008, ISO 14001:2004, and OHSAS 18001:2007 Requirement.
- **PESCO** shall actively mitigate to minimize any negative impact its operations may have on the environment. We shall also help by putting counter pollution and monitoring systems in place to cover other companies' operations when requested, further reducing the effect on the environment.
- Recruiting Foreign and National Experts in the field of Oil Spill Response and Environmental Preservation.
- To provide our services to our clients we have a nucleus of internationally trained personnel and modern response equipment.
- Instant response to Oil Pollution and Environmental Protection through several work sites strategically placed and on call 24 hours a day.
- Implementing Oil Spill Response and Environmental Preservation in line with the National Contingency Plan as well as OPRC 90.
- In its work for environmental protection, **PESCO** shall maintain suitable dialogues and collaborations with all interested parties and authorities.
- Communicating with the International community related to Pollution Combating and Environmental Preservation.
- **PESCO** Management shall ensure that the QHSE policy and objectives are understood and implemented and maintained at all levels through effective communications.
- **PESCO** will communicate this policy to all employees, make it available to the public, and maintain procedures to receive and respond to inquiries from external interested parties.
- Provides the framework for setting and reviewing QHSE objectives and Targets.
- Prevent and Mitigate hazards on workers working under control of the PESCO.

Senior management at **PESCO** believes that how we care for the environment today affects both current and future generations. We accept responsibility for doing our best to maintain awareness and to minimize adverse environmental impacts from our operations.
